SUBJECT: Peaceful Nuclear Cooperation with China (S)

The subject of possible peaceful nuclear cooperation with China requires high-level and urgent review. Given the urgency of the matter, that review should be forwarded for the President's consideration no later than December 16. It should address the current situation and relevant background and the potential advantages and disadvantages of such cooperation, including a discussion of the political and legal considerations or constraints. It should be prepared in coordination with Departments of State, Defense, Commerce, Energy, Central Intelligence Agency, and Arms Control and Disarmament Agency. (S)

William P. Clark
